

The procedure for putting on the OZK

Combined Arms Protective Kit (OZK) - personal protective equipment designed to protect a person from toxic substances, biological agents and radioactive dust.

OZK can be worn in the form of a raincoat and in the form of overalls.

OZK consists of a raincoat with a hood, rubber gloves and chemical stockings

A) Putting on the OZK in the form of a cloak

Early dressing of OZK (cloak in sleeves) is carried out on uninfected areas on command: "Cloak in sleeves, put on stockings and gloves. Gases! " This command requires:

1. Put the OZK on the ground, leaving the gas mask on itself in the stowed position.
2. Put on the stockings, catch the straps, starting from the bottom and tie both straps on the waist belt.
3. Put on the cloak in the sleeves and the gas mask, leaving the gas mask under the cloak and catch the pins of the cloak.
4. Put on a hood and gloves, with the loops on the sleeves put on the thumbs over the gloves

Removal of the infected OZK is carried out in the absence of the possibility of its degassing on a person by means of regular means in an uninfected area. When removing the OZK, do not touch the outer (infected) side with open areas of the body and clothing.

To remove an infected OZK, you must:

1. Turn to face the wind;
2. Unbutton the hem of the raincoat, lower and middle tabs of the stocking;
3. Remove the loops from the thumbs;
4. Throw back the hood from the head;
5. Take the raincoat by the outside of the sides and, without touching the clothes, throw it back;
6. Alternately, behind your back, release your hands halfway from your gloves and shake off
7. Gloves together with the sleeves of the raincoat;
8. Take 3-5 steps forward and turn your back to the wind;
9. Unfasten the upper straps of the stocking and untie the straps at the waist;
10. Alternately, stepping with the toe of one leg on the heel of the other leg, pull the legs out of the stockings halfway and gently shake off the stockings;
11. Move away from the removed OZK to the windward side, backing away 3-5 steps and, sticking your thumb under the helmet-mask of the gas mask in the neck area and bending down to the ground, remove the gas mask and put it on the ground;
12. Turn to face the wind and move away from the gas mask.

B) Putting on the OZK in the form of a jumpsuit

1. Remove the gas mask and headgear;
2. Remove the raincoat in the cover and put it on the ground;
3. Tuck the jacket into the trousers;
4. Put on stockings, fasten the straps and tie the braid on the trouser belt;
5. Put on a raincoat in the sleeves;
6. Pass the ends of the holders into the frames at the bottom of the raincoat and fix them within the holders;
7. Fasten the central holes on the central fastener first with the right and then with the left floor of the raincoat and fasten them;
8. Fasten the holders of the two fasteners located below the central fastener with bartacks;
9. Fasten the side straps of the raincoat with the fasteners, having previously wrapped them around the legs under the knees;
10. Button up the hem of the raincoat;
11. Put on a hat over the raincoat;
12. Put on the hood of the cloak over the headdress;
13. Wrap the sleeves of the raincoat, remove from the cover and put on gloves, lower the sleeves of the raincoat on the leggings of the gloves, putting on the loops on the thumbs

Removal of the OZK, put on in the form of overalls, is carried out by the command "PROTECTIVE SUIT TO REMOVE". This command requires:

1. Turn to face the wind, take off your gas mask bag, take off your gear, unfasten paper clips, unfasten the hem of your raincoat and straps of stockings;
2. Remove the loops from the thumbs;
3. Fold back the hood from the head to the back;

4. Free the holders from the steel frames;
5. Pull your hands out of the sleeves of the raincoat (behind your back), without removing your gloves;
6. Lift the raincoat by the holders up and throw it back;
7. Untie the stockings from the trouser belt, and then, alternately stepping with the toe of one leg on the heel of the stocking of the other leg, pull the legs out of the stockings to half and remove the stockings by shaking them off;
8. After actions in the zones of contamination with substances, process uniforms, equipment, a bag for a gas mask and shoes with the DPP recipe (DPS-1);
9. Take off gloves, take off gas mask

Использование ОЗК в виде комбинезона

Надеть поверх плаща снаряжение и сумку противогаса

Привести противогаз в «боевое» положение

Надеть головной убор (каска), а затем капюшон на голову; застегнуть остальные держатели плаща и хлястик капюшона
